Herewith I thank Mr. Claus Tessari for his immediate support and readiness to take over the patronage for the orphanage as well as for his generous donation and the takeover of the monthly labour costs for the orphanage. Without Claus Tessari the project would never have become true.

The second main sponsor:

Hansgrohe AG

Herewith I thank the company Hansgrohe, Mr. Stefan Krischak and Mr. Thomas Egenter who were with me on site and have been enthusiastic about the project.

I also would like to thank the whole staff of the company from Hansgrohe AG, which have made a big donation possible by their extra hours discount payment and holiday discount payment and this was still raised by the management. Likewise the machines and the sanitary armatures were donated to the training workshop of the orphanage.
